

# DESERT

BYELLA

## Temperature

In the desert the temperature can get as hot as  $40^{\circ}\text{C}$  and at night it can drop to  $-4^{\circ}\text{C}$ . In winter it is  $-4^{\circ}\text{C}$ .

## How it looks

There is a lot of sand, rocks and small shrubs. There is also cactus and some trees.

## Fun fact

Antartica is the coldest desert on earth.

## Location

The desert is often found toward the western part of continents. Like Asia.

## Animals

In the desert there are lots of mammals and birds. Some examples are lizards, gecko, turtles, armadillos, snakes, Hyenas, elephants, meerkats, spiders, insects, reptiles, kangaroo and camels.
